WAGNOTH SCHEME!!

**THE** following detail of a SCHEME or Lottery, to be drawn in December next, warrants us in declaring it to be unparalleled in the history of Lotteries. Prizes to the amount have never before been offered to the public. It is true, there are many blanks, but on the other hand, the extremely low charge of \$20 per Ticket—the value and number of the Capital, and the good old custom of awarding that every Prize shall be drawn, and sold, will, we are confident, secure universal satisfaction, and especially to the Six Hundred Prize Holders.

To those disposed to adventure, we recommend early application being made to us for tickets—where the Prizes are all sold, blanks only remain—the first buyers have the best chance. We, therefore, emphatically say, delay not, but at once enroll and transmit to us your orders, which shall always receive our immediate attention. Letters to be addressed, and application made to

**THE** establishment upon a permanent basis, in the South Western States, of some periodical publication, devoted exclusively to subjects of Literature, Science and Society, has long been demanded by the increasing intelligence and refinement of that portion of the Union. Possessing natural advantages superior to any other section of our country, and peculiarly suited, from the character of its political and domestic institutions, to the cultivation of those arts and refinements which constitute the chief glory and pleasure of social existence,—the South has yet done but little to develop or improve those intellectual gifts, which, it is believed, have been bestowed upon her in a superlative degree. Her authors have been principally engaged "in the sugar trade and cotton line"—or in politics—"that vain low strife, which makes men mad"—in every department, however, in which they have engaged, they have exhibited intellectual vigor, that most engaging attribute of man, Genius—of the highest order. Her Orators and Statesmen are the foremost of the Union—and these few of her sons who have engaged in literary enterprise, have shed honor upon themselves and their country. These facts indicate that in no natural faculty that has remained to the intellectual property of the South,—and warrant the confident belief that it is that portion of the Union, and her twin-sisters, the West and the North, must the literary refinement of our country, and place American literature, upon an equal footing with that of Europe.
